

**City of Utica, New York
DRAFT SCOPING DOCUMENT**

**St. Elizabeth’s Campus Reuse Master Plan
2209 Genesee Street, Utica, New York**

This document identifies the issues to be addressed in the Draft Generic Environmental Impact Statement (“DGEIS”) for the proposed St. Elizabeth’s Campus Reuse Master Plan located at 2209 Genesee Street, Utica, New York (“Site”). This Draft Scoping Document was prepared in general accordance with 6 NYCRR Part 617.8 (e)(1) through (7).

Name of Action: St. Elizabeth’s Campus Reuse Master Plan

Lead Agency: City of Utica Planning Board

Lead Agency Contact: Mr. Brian Thomas, AICP
Commissioner
Department of Urban and Economic Development
1 Kennedy Plaza
Utica, New York 13502

Classification of Action: Type I

Written Scoping Comments: Written public comments on the draft scoping document will be accepted by the Lead Agency until **_____ p.m. on October _____, 2024.**

Description of Proposed Action:

Mohawk Valley Health System (“MVHS”) in conjunction with the City of Utica (“City”) and Mohawk Valley Edge (“MVE”) (collectively, the “Redevelopment Team”) have embarked on a process to develop a master reuse plan for the former St. Elizabeth Hospital campus located at 2209 Genesee Street in the City of Utica. The Site is approximately 21.3 acres and has eight existing buildings totaling approximately 738,460 square feet and a 515-car parking garage. It includes the former hospital complex including original hospital building and subsequent additions, Marian Hall, the existing St. Elizabeth College of Nursing and the former convent of the Sisters of St. Francis of the Neumann Communities.

The St. Elizabeth Campus Reuse Master Plan process seeks to evaluate the potential reuse scenarios for the former hospital campus. While the nursing school intends to remain, the remainder of the Site is now vacant or greatly underutilized. The Redevelopment Team developed four potential reuse scenarios (single-family residential, townhomes, adaptive reuse multifamily and new multifamily) to be vetted as potential strategies for the reuse of the Site. These four scenarios were viewed as the most likely redevelopment options for the Site and have been subject to initial community input. The scenarios range from fifty-one (51) residential units up to two-hundred fifty-two (252) residential units with a limited commercial component in a fully developed historic adaptive reuse scenario.

In furtherance of the master planning process, the Redevelopment Team has submitted the four potential redevelopment scenarios for sketch plan review by the City of Utica Planning Board (“Planning Board”). It is not anticipated that a particular option will be chosen or “approved” by the Planning Board, but rather that their input along with a detailed environmental assessment of the four scenarios can be completed. Then, a fully vetted reuse scenario that weighs and balances relevant environmental impacts with social, economic, and other considerations will emerge from this process in anticipation of execution by a private developer in the future.

The City of Utica Planning Board declared its intent to act as Lead Agency, for purposes of the State Environmental Quality Review Act (“SEQRA”) review process, on August 16, 2024.

The format and scope of the DGEIS pursuant to 617.9(b) is as follows:

Cover Sheet and General Information

A DGEIS Cover Sheet will be provided that includes:

- Title of the document;
- Title of the Proposed Action;
- Location of the Proposed Action;
- Name, address and phone number of the Lead Agency, including name of the contact person;
- Name, address and phone number of the preparer of the DGEIS and contact person;
- Date and acceptance of the DGEIS (to be inserted at later time); and
- Date of the public hearing and deadline by which comments on the DGEIS should be provided (to be inserted at later time).

In addition:

- The DGEIS will include a list of the participating consultant(s), with their address, telephone number and project responsibilities; and
- The DGEIS will include a Table of Contents, List of Exhibits, List of Tables and List of Appendices.

1.0 EXECUTIVE SUMMARY

- 1.1 Introduction
- 1.2 Brief Description of the Proposed Action (Provide a brief overall description of the Proposed Action).
- 1.3 Lead Agency Designation (Describe the City’s Lead Agency designation process pursuant to SEQRA).
- 1.4 Involved and Interested Agencies (Describe the Involved and Interested agencies identified by the City and the SEQRA coordinated review process. These agencies consist of City of Utica Common Council; City of Utica Scenic and Historic Preservation Commission; Oneida County Department of Water Quality and Water Pollution Control; Oneida County Department of Planning; Oneida County Board

of Legislators; Mohawk Valley Water Authority; Mohawk Valley EDGE; New York State Department of Environmental Conservation, Region 6; New York State Department of Transportation, Region 2; New York State Department of Labor; New York State Historic Preservation Office; Empire State Development; and New York State Department of Health).

- 1.5 Required Reviews and Approvals (Identify the required agency reviews and approvals necessary for the Proposed Action).
- 1.6 Potential Impacts and Mitigation Measures (Provide a brief summary of the potential adverse impacts of the Proposed Action; provide brief summaries of the identified impact avoidance and mitigation techniques and strategies, if any, to be used as part of the Proposed Action).
- 1.7 Project Alternatives (Provide a brief description of the alternative actions considered in lieu of the Proposed Action, including SEQRA's requisite "No-Action Alternative" and the Proposed Action Alternative).

2.0 DESCRIPTION OF PROPOSED ACTION

- 2.1 Description of the Proposed Action (Describe the Proposed Action, providing its general location, proposed building/site dimensions and features, and applicable zoning).
- 2.2 Site Location and Description (Describe and map the location of the Proposed Action in terms of its general character, land use pattern and overall environmental conditions and/or significant features)
- 2.3 Project Purpose, Need, and Benefits (Provide a brief description of the Proposed Action's benefits to the local and surrounding communities, its benefits on real estate and sales taxes, and construction and operational employment).
- 2.4 Required Reviews and Approvals (Provide brief discussion and/or list of the required agency permits, reviews and approvals necessary for the Proposed Action).

3.0 ENVIRONMENTAL SETTING, POTENTIAL IMPACTS, AND MITIGATION

- 3.1 Community Character
 - 3.1.1 Setting (Include a qualitative narrative of existing community character in the vicinity of the Site including a description of the current built environment, visual character, land uses, community services, the Proposed Action's scale, siting, design and function, and the Site's proximity to any historic districts or buildings).
 - 3.1.2 Potential Impacts (Evaluate the balance between commercial and residential uses in the area in the context of the Proposed Action and determine the level of potential impact, if any, including whether it will impact visual character and whether its scale, design, layout, etc. will be in sharp contrast to surrounding land uses).
 - 3.1.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on community character).

- 3.1.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on community character).
 - 3.1.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on community character).
 - 3.1.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on community character).
 - 3.1.3 Mitigation (Describe mitigation measures).
 - 3.1.3.1 Action Alternative #1 (Describe Single Family Houses Alternative include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.1.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.1.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.1.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
- 3.2 Historic Resources
 - 3.2.1 Setting (Include a qualitative narrative of the Site's existing state and local historic status and/or designation and location within existing historic district).
 - 3.2.2 Potential Impacts (Evaluate consistency of Proposed Action with its state or local historic status and/or designation and location in historic district and surrounding area).
 - 3.2.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on historic resources).
 - 3.2.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on historic resources).
 - 3.2.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on historic resources).
 - 3.2.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on historic resources).
 - 3.2.3 Mitigation (Describe mitigation measures).
 - 3.2.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.2.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.2.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.2.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.3 Transportation

3.3.1 Setting (Describe the existing transportation network including the local road and state highway network, pedestrian and public transportation network, existing on-site parking facilities, ingress/egress, and the current level of use of services such as the existing vehicular Average Annual Daily Traffic (“AADT”) in the vicinity of the Site).

3.3.2 Potential Impacts (Based on a Traffic Impact Study, describe the distribution of the new trips generated by the Proposed Action onto the adjacent roadway network during the morning and evening peak hours, compare such trips to the previous hospital operations, and assess the Proposed Action’s potential impact on the roadway network; Describe the potential impact of the Proposed Action on the pedestrian environment and public transportation system; and describe the potential impact of the Proposed Action on adequacy of parking facilities).

3.3.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on transportation).

3.3.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on transportation).

3.3.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on transportation).

3.3.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on transportation).

3.3.3 Mitigation (Describe mitigation measures).

3.3.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.3.3.2 Action Alternative #2 (Describe Townhouses Alternative).

3.3.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.3.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.4 Community Plans

3.4.1 Setting (Include a qualitative narrative of Site’s context within City’s land use plan).

- 3.4.2 Potential Impacts (Describe consistency of Proposed Action with existing land use plans, surrounding land use pattern(s), and infrastructure).
 - 3.4.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its consistency with adopted community plans).
 - 3.4.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its consistency with adopted community plans).
 - 3.4.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its consistency with adopted community plans).
 - 3.4.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its consistency with adopted community plans).
- 3.4.3 Mitigation (Describe mitigation measures).
 - 3.4.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.4.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.4.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.4.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
- 3.5 Land Use and Zoning
 - 3.5.1 Setting (Describe the Site's existing land use and zoning of the Site and surrounding area including "Neighborhood Mixed-Use (NMU)" zoning and its permitted uses; bulk requirements including building height requirements; lot coverage; side yards; rear yards; setbacks; and off-street parking).
 - 3.5.2 Potential Impacts (Describe the Proposed Action's compliance with the requirements and regulations of the NMU zoning district including proposed use, building height, lot coverage, side yard setback, rear yard setback, and front yard setback).
 - 3.5.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its consistency with existing zoning).
 - 3.5.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its consistency with existing zoning).
 - 3.5.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its consistency with existing zoning).
 - 3.5.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its consistency with existing zoning).

- 3.5.3 Mitigation (Describe mitigation measures and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.5.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.5.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.5.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.5.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

3.6 Human Health

- 3.6.1 Setting (Include a qualitative narrative of any asbestos-containing or other potentially hazardous materials identified within the Site's buildings and existing community uses in the vicinity of the Site, including schools, hospitals, licensed daycare centers, group homes, nursing homes, or retirement communities).
- 3.6.2 Potential Impacts (Describe any potential impact on human health from exposure to new or existing sources of contaminants).
 - 3.6.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on human health).
 - 3.6.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on human health).
 - 3.6.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on human health).
 - 3.6.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on human health).
- 3.6.3 Mitigation (Describe mitigation measures).
 - 3.6.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.6.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.6.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.6.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

- 3.7 Aesthetic Resources
 - 3.7.1 Setting (Include a qualitative narrative of the current conditions at the Site related to current land use patterns between the Project and nearby aesthetic or scenic resources).
 - 3.7.1.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on aesthetic resources).
 - 3.7.1.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on aesthetic resources).
 - 3.7.1.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on aesthetic resources).
 - 3.7.1.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on aesthetic resources).
 - 3.7.2 Mitigation (Describe mitigation measures).
 - 3.7.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.7.2.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.7.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.7.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
- 3.8 Energy
 - 3.8.1 Setting (Describe existing energy usage at the Site and surrounding area).
 - 3.8.2 Potential Impacts (Describe Proposed Action's anticipated energy usage and evaluate any change between anticipated use and current use at Site).
 - 3.8.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on energy use).
 - 3.8.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on energy use).
 - 3.8.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on energy use).
 - 3.8.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on energy use).
 - 3.8.3 Mitigation (Describe mitigation measures).
 - 3.8.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

- 3.8.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.8.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.8.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
- 3.9 Stormwater, Drainage, and Utility Capacity
- 3.9.1 Setting (Describe the Site's existing drainage patterns, topography and public utilities including sewer and water service).
 - 3.9.2 Potential Impacts (Describe the potential impacts from the Proposed Action on its potential to increase erosion and sedimentation, and flooding and exceed local utility capacity .
 - 3.9.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on stormwater, drainage, and utility capacity).
 - 3.9.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on stormwater, drainage, and utility capacity).
 - 3.9.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on stormwater, drainage, and utility capacity).
 - 3.9.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on stormwater, drainage, and utility capacity).
 - 3.9.3 Mitigation (Describe mitigation measures).
 - 3.9.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.9.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.9.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.9.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
- 3.10 Noise, Odor, and Light
- 3.10.1 Setting (Describe the ambient noise environment in and around the Site including noise from nearby residential activities (e.g., entering and exiting vehicles, car doors, air conditioning units, lawn mowers) and ambient noise

from traffic along Genesee Street; Describe the Site's existing artificial lighting and spillover artificial lighting from adjacent streetlights).

- 3.10.2 Potential Impacts (Provide a qualitative analysis of noise associated with the Proposed Action's construction activities including noises from construction equipment, machinery, and generators for the demolition of the current structures, grading of the site, construction, and site preparations including paving of the proposed parking and sidewalks, and landscaping.; Provide a qualitative analysis of noise associated with the Proposed Action during operation; Determine whether the Proposed Action's operations will produce loud, discordant, or disagreeable noise in comparison with existing and former hospital ambient noise environment and whether ambient noise associated with activities adjacent to and near the Site are anticipated to change during construction or operation; Describe the potential impacts from the Project's artificial safety and security lighting and their spillover impacts on adjacent properties.
 - 3.10.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and include an assessment of its potential impact on noise, odor and light).
 - 3.10.2.2 Action Alternative #2 (Describe Townhouses Alternative and include an assessment of its potential impact on noise, odor and light).
 - 3.10.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and include an assessment of its potential impact on noise, odor and light).
 - 3.10.2.4 Action Alternative #4 (Describe Multifamily New Alternative and include an assessment of its potential impact on noise, odor and light).
- 3.10.3 Mitigation (Describe mitigation measures).
 - 3.10.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.10.3.2 Action Alternative #2 (Describe Townhouses Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.10.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).
 - 3.10.3.4 Action Alternative #4 (Describe Multifamily New Alternative and include identified impact avoidance and mitigation techniques and strategies, if any).

4.0 OTHER ENVIRONMENTAL IMPACTS

- 4.1 Unavoidable Adverse Environmental Impacts (Provide a list and brief descriptions of those adverse impacts that cannot be avoided).

- 4.1.1 Action Alternative #1 (Describe Single Family Houses Alternative and identify any unavoidable adverse environmental impacts).
 - 4.1.2 Action Alternative #2 (Describe Townhouses Alternative and identify any unavoidable adverse environmental impacts).
 - 4.1.3 Action Alternative #3 (Describe Residential Reuse Alternative and identify any unavoidable adverse environmental impacts).
 - 4.1.4 Action Alternative #4 (Describe Multifamily New Alternative and identify any unavoidable adverse environmental impacts).
- 4.2 Irreversible and Irretrievable Commitment of Resources (Identify the natural and human resources to be substantially consumed, converted, or made unavailable for future use as a result of the Proposed Action).
- 4.2.1 Action Alternative #1 (Describe Single Family Houses Alternative and identify any irreversible and irretrievable commitment of resources).
 - 4.2.2 Action Alternative #2 (Describe Townhouses Alternative and identify any irreversible and irretrievable commitment of resources).
 - 4.2.3 Action Alternative #3 (Describe Residential Reuse Alternative and identify any irreversible and irretrievable commitment of resources).
 - 4.2.4 Action Alternative #4 (Describe Multifamily New Alternative and identify any irreversible and irretrievable commitment of resources).
- 4.3 Growth-Inducing, Cumulative and Secondary Impacts (Identify growth-inducing aspects of the Proposed Action including its effects on the City's population, the expansion of support facilities such as businesses and service industries, or its potential impacts on any public infrastructure or municipal or community service provider (e.g., police, fire, ambulance; Describe the potential impacts on lands surrounding the Project Site and its consistency with the City's Land Use Plan and Zoning Code; Describe whether the Proposed Action represents a precedent-setting action which would spur additional development, either small-scale or large-scale, in this area).
- 4.3.1 Action Alternative #1 (Describe Single Family Houses Alternative and its potential growth-inducing, cumulative and secondary impacts).
 - 4.3.2 Action Alternative #2 (Describe Townhouses Alternative and its potential growth-inducing, cumulative and secondary impacts).
 - 4.3.3 Action Alternative #3 (Describe Residential Reuse Alternative and its potential growth-inducing, cumulative and secondary impacts).
 - 4.3.4 Action Alternative #4 (Describe Multifamily New Alternative and its potential growth-inducing, cumulative and secondary impacts).
- 4.4 Energy Use and Conservation (Provide a discussion of those aspects of the Proposed Action that would contribute to an increase in energy use, as well as potential options for energy conservation).
- 4.4.1 Action Alternative #1 (Describe Single Family Houses Alternative and its potential impact on energy use).
 - 4.4.2 Action Alternative #2 (Describe Townhouses Alternative and its potential impact on energy use).

- 4.4.3 Action Alternative #3 (Describe Residential Reuse Alternative and its potential impact on energy use).
- 4.4.4 Action Alternative #4 (Describe Multifamily New Alternative and its potential impact on energy use).
- 4.5 Climate Change (Provide a discussion of measures to avoid or reduce both the Proposed Action's impacts on climate change and associated impacts due to the effects of climate change such as sea level rise and flooding).
 - 4.5.1 Action Alternative #1 (Describe Single Family Houses Alternative and its potential impact on climate change and use of conservation measures).
 - 4.5.2 Action Alternative #2 (Describe Townhouses Alternative and its potential impact on climate change and use of conservation measures).
 - 4.5.3 Action Alternative #3 (Describe Residential Reuse Alternative and its potential impact on climate change and use of conservation measures).
 - 4.5.4 Action Alternative #4 (Describe Multifamily New Alternative and its potential impact on climate change and use of conservation measures).

5.0 ALTERNATIVES

- 5.1 No Action Alternative (Describe and evaluate the adverse or beneficial site changes that are likely to occur in the reasonably foreseeable future, in the absence of the Proposed Action).
- 5.2 Proposed Action Alternative #1 (Describe and evaluate the design and scale of the Proposed Action alternative, Single Family Houses).
- 5.3 Proposed Action Alternative #2 (Describe and evaluate the design and scale of the proposed action alternative, Townhouses).
- 5.4 Proposed Action Alternative #3 (Describe and evaluate the design and scale of the proposed action alternative, Residential Reuse).
- 5.5 Proposed Action Alternative #4 (Evaluate the design and scale of the proposed action alternative, Multifamily New).
- 5.6 Conduct a comparative assessment of the Proposed Action alternatives presented.

6.0 SPECIFIC CONDITIONS OR CRITERIA UNDER WHICH FUTURE ACTIONS WILL BE UNDERTAKEN OR APPROVED

- 6.1 Describe specific conditions or criteria under which future actions will be undertaken or approved, including requirements for any subsequent SEQR compliance. This may include thresholds and criteria for supplemental EISs to

reflect specific significant impacts, such as site-specific impacts, that were not adequately addressed or analyzed in the DGEIS.

7.0 REFERENCES (Provide listing of the various documents and information sources utilized in the preparation of the DGEIS.)

8.0 APPENDICES

The following are the appendices anticipated to be included in the DGEIS:

- Site Location Map
- City of Utica Planning Board SEQRA Documentation
- Sketch Plan Application
- Agency Correspondence
- Site Concepts
- Traffic Impact Study
- Zoning Map
- Market Analysis
- Financial Feasibility Analysis
- Survey
- Phase I Environmental Site Assessment
- Parking Garage Separation Report
- Asbestos Surveys
- Conservation Easement Map
- Floor Plans
- Public Input Summaries
- Public Correspondence regarding Draft Scoping Document
